Dear Mr. Kelly:

SUBJECT: Applicable, Relevant, and Appropriate Requirements (ARARs)  
Former SRS Environmental a.k.a. Sybill Site  
111 Military Avenue, Detroit, Wayne County, Michigan

I have received your letter dated December 26, 2002 requesting that the Department of Environmental Quality (DEQ) identify all ARARs for the proposed removal at the above-subject site. Thank you for offering the DEQ the opportunity to provide input with this matter. Per your request, I have prepared a brief list of ARARs as they apply to this site.

The DEQ would ask that the relevant parts of the Natural Resources and Environmental Protection Act, P.A. 451 of 1994, as amended, be considered as ARARs, to the extent possible. The relevant parts of P.A. 451 would likely include the following:

Part 111 – Hazardous Waste Management  
Part 121 – Liquid Industrial Wastes  
Part 201 – Environmental Response

In the event that a release of hazardous substances to the soil and/or groundwater is discovered, the DEQ would ask that any response activity meet Part 201 cleanup standards. We will gladly provide whatever assistance we can to EPA in support of your efforts to decommission and cleanup the Sybill site. If you have any questions, please feel free to contact me at the telephone number below.

Sincerely,

James J. Ferritto, Jr., CPG, Senior Geologist  
Remediation and Redevelopment Division
